

**New York State Department of Environmental Conservation
Notice of Incomplete Application - This is NOT a Permit**

Application ID: 8-4666-00022/00003

Batch Number: 877566

Facility: LEO DICKSON & SONS INC COMPOSTING FACILITY
DIXON RD - S SIDE
THURSTON, NY

Applicant: DICKSON'S ENVIRONMENTAL SERVICES INC
5226 BONNY HILL RD
BATH, NY 14810

Owner ID: 1537510

Permit(s) Applied for: 1 - Article 27 Title 7 Solid Waste Management

Project Location: in THURSTON in STEUBEN COUNTY

Your application for Permit is incomplete. The following items are required:

While the Department is in receipt of your renewal application for this facility (received on June 17, 2021), the previous permit authorization expired in June 2017 without protections under SAPA. As the permit has expired, a “new” application form and all supporting documents need to be submitted. Please note that the current requirements for new applications can be found at 6 NYCRR 360.16 and 361-3.2(d). While a new facility manual was provided, the manual needs to be reviewed in the context of the new application.

The submitted application for a permit is considered incomplete and will be considered incomplete until DEC receives a completed application for a new permit for the operation, including all of the information required under environmental law and regulation (including UPA, SEQR and ECL Article 27/Part 360 et seq.) to support that application.

In light of previous discussions we have had jointly with Dickson's Environmental Services and Casella, (along with the letter dated March 22, 2021 from Casella showing interest in acquiring some of the assets of Dickson's Environmental Services, and a July 8, 2020 Casella email which expressed interest in the composting operations), it is understood that Casella has intentions to restart composting operations. In order to review the application (and to properly conduct a public notice and review SEQR), the intended owner or operator of the proposed composting facility should be the applicant for this new application. As part of the application, please clarify the intended future owner and operator of the proposed composting facility.

It is noted that the Department of State has the legal name of your corporation as "DICKSON'S ENVIRONMENTAL SERVICES, INC.", rather than "DICKSON ENVIRONMENTAL SERVICES, INC.". The correct corporation name should be used in future applications.

One hard copy and one electronic copy should be sent to the NYSDEC Region 8 Department of Environmental Permits office and directed to my attention (robert.call@dec.ny.gov). Please call me at (585) 226-5396 if you have any questions regarding the information needed.

cc: B. Parmelee, B&L
