---

**Your application for Permit is incomplete. The following items are required:**

- *Image 3: Average Monthly Temperatures and Digester Reaction Times* in the April 15, 2022, permit modification letter refers to an appendix, please submit a copy of the referenced appendix.
- *Per 6NYCRR Part 361-2.4(e)(2)(ii) a description of the quality of the biosolids, including analytical results, as identified below: (a) the required parameters for analysis are found in Table 1 in section 361-3.9 of this Part;*

Submit copies of the required Fecal coliform or Salmonella sp. bacteria sampling data. Copies of the original laboratory results from a laboratory certified by the Department of Health for that type of analysis, using methods acceptable to the Department and an updated summary table must be submitted to the Department.

- *Per 6NYCRR Part 361-2.4(e)(2)(ii) a description of the quality of the biosolids, including analytical results, as identified below: (b) the minimum number of analyses, for each biosolids source is outlined in Table 2 in section 361-3.9 of this Part;*

The Notice of Incomplete Application letter submitted September 13, 2022, states the facility will produce approximately 30,000 tons of biosolids annually. According to Table 2 of 6 NYCRR Part 361-3.9 a minimum of 12 analyses are required with this permit application. The current application only included six analyses, please submit the additional six analyses and update the summary table.

- The Number 13 b on the Short Environmental Assessment Form the is not filled out. Please provide a statement which addresses this issue and applies to all SEQR forms.

Let us know if you would like to discuss any of these comments.
